Objective

To contribute to my employer's success by leveraging my technical skills and problem-solving abilities, while continuously learning and growing in the field of Linux and cloud technologies, thereby enhancing both organizational and personal success.

Technical Exploration & Hands-On Experience

Two years of hands-on practice building and refining a home lab environment, experimenting with CentOS, Ubuntu, Windows Server 2022, and VMware ESXi to develop real-world technical skills.

Continuously deepening expertise in Linux administration, containerization, and server management through self-directed learning and practical projects.

Engaged in cloud-based practices, utilizing Amazon Linux on AWS EC2 to gain experience

Certifications and Milestones
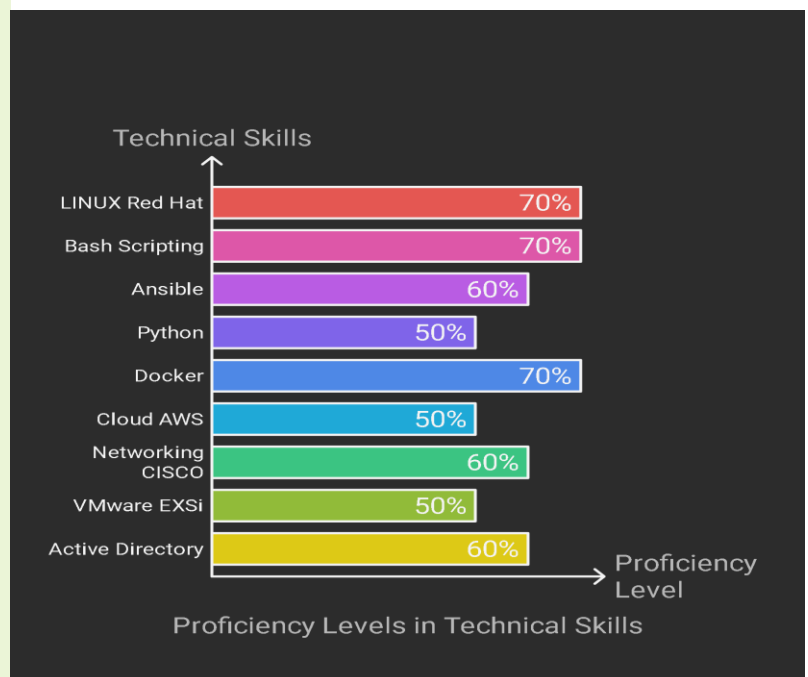

Red Hat Certified System Administrator -2023

AWS certified Cloud Practitioner -2021
